SKILLS

- Java (Spring Boot)
- Next.js / React.js
- Node.js / PHP
- n8n
- MySQL, PostgreSQL, Neo4j
- Agile / Scrum
- Adaptability
- Problem solving

LANGUAGES

- French: Fluent
- Malagasy: Native language
- English: Basic level

HOBBIES

- Drawing
- Video games
- Walking

PROFILE

Fullstack developer with 3 years of experience, passionate about technical challenges and innovation, I design and build tailor-made web applications combining performance, security and user experience. Involved in several diverse projects (fintech, payments, restaurant industry), I always aim to deliver effective solutions suited to users' needs. My approach is structured and geared toward continuous improvement, with strong skills in backend development (Java Spring Boot, Node, PHP) and frontend development (Next.js, React.js).

PROFESSIONAL EXPERIENCE

Jan. 2024 -
Present

FULL STACK DEVELOPER, Java, PHP, JS/TS, MySQL, n8n

Ibonia, Antananarivo

- Design and development of web platforms, mainly in fintech, with exploration of other sectors such as the restaurant industry.
- Integration of payment plugins and application maintenance.
- Performance optimization, bug fixing, deployment and feature evolution.
- Application of good development practices: unit testing and TDD approach to ensure robust and scalable applications.

Jan. 2024 -
Present

IT INTERN

Ibonia, Antananarivo

- Development of a custom digital solution in the fintech field.
- Combined use of Java Spring Boot, React.js and MySQL to design a development tool specialized for fintech developers.

EDUCATION

Oct. 2024 -
Dec. 2025
